Effective March 14, 2019, changes have been made to remove the previously-displayed jail total from the Sentencing screen in Docket, the Journal Entry and Order, the Order of Probation screen in DOCKET, and the automated probation order that is generated through Docket. These changes have been made due to the fact that the jail total was not being calculated correctly when there were multiple counts with jail sentences on a case.

1. When jail sentences are entered in the Pleas/Dispo screen, the calculated jail total will no longer display in the Sentencing screen as shown below. The amount of jail entered for each count can still be reviewed by clicking the What button prior to signing.
